

A young girl with her hair in a bun, wearing a yellow polo shirt, light-colored pants, and black sneakers with neon green accents, is sitting on a dark brown, tufted playground seat. She is smiling and looking back over her shoulder. The background is a blurred outdoor playground setting with another similar seat visible.

Furnishings

# Put the finishing touches on your play environment

**L**andscape Structures offers four distinct site furnishings collections—choose the one that aesthetically matches your play environment.

The Designer Collection provides all the modern furnishings you need to complement your contemporary playstructure. Looking for something more traditional? Look no further than the vibrant colors of the Vivid Collection. Discover how the Nature-Inspired Collection blends seamlessly with the natural environment and your nature-inspired playstructure. Introduce the bold, sculptural lines of the Facet™ Forms Collection to your contemporary playground.

Finally, set it all off with informative signage. The result is a fully furnished playground that will welcome visitors harmoniously for years to come.

# Facet™ Forms Collection

The modern appearance of Facet Forms, celebrating the look of raw concrete and wood, complements both natural and architectural environments. Made from hand-painted concrete and recycled plastic lumber, these cool and contemporary-looking structures will stand up to years of use.

S-shaped double

## Facet Forms Bench

**O**ur durable signs are a great way to welcome visitors, mark trails, educate park users and complete a theme. Constructed from rugged materials like steel, aluminum and Permalene®, our signs are built to last.

Signs made with our DigiFuse® process feature vivid, full-color, photo-realistic graphics for a one-of-a-kind sign. Images are fused onto metal panels using a proprietary process, which results in engaging graphical elements for the optimal combination of beauty and durability.

A.

## A. Playground Welcome/Safety Sign

- ONE FREE with purchase of any qualifying Landscape Structures playsystem
- Post is ProShield®-finished to match your playsystem
- Purchase additional signs for multiple entry points or to retrofit an existing playground
- **#182504**

## Personalized Signs

- Add personality and valuable information to any site
- Available in many sizes, material types and your choice of color combinations
- Can accommodate a wide range of text, logos and graphics

**Permalene® Color Panels**

Permalene panels with a recycled core are a smart choice for your playground and the environment. Available in the 16 colors shown, the distinctive black core results from combining and recycling colored plastic waste that would otherwise end up in landfills.

**TenderTuff™ Coating** Insulates against temperature extremes and provides a safer grip surface compared to painted metal.

**Recycled Plastic Lumber** Looks like wood but is more durable so it lasts longer and is easier to clean. This 100-percent recycled, high-density polyethylene material is UV stabilized to prevent warping in direct sun.

**ProShield® Colors** ProShield® finish combines a specially formulated primer with a high-quality, architectural-grade, super-durable TGIC polyester powder coat. The result is enhanced longevity, greater protection against harsh UV rays, prevention from corrosion, and improved product performance. Custom colors are available for an additional charge.

Since 1971, Landscape Structures Inc. has been the leading manufacturer of commercial playground equipment in the world. Our employee-owned company designs community and school playgrounds that encourage kids of all ages and abilities to learn persistence, leadership, competition, bravery, support and empathy through play. We push the limits—of design, inclusion, play—to help kids realize there is no limit to what they can do today and in the future. For a better tomorrow, we play today.
