

Two times the fun, The HydraHub2 combines the HydraHub1 with another raised platform filled with interactive experiences. Both platforms are linked by a bridge and tunnel with water effects that kids must dodge or be doused. A play panel lets kids tip water-filled buckets to empty on friends below. A tube slide ends in a tunnel that is wet while the custom three-person wide slide features two arch bars that spray the landing pad. Kids will have a hard time staying dry on this structure.

<b>Material Options:</b>	Stainless Steel
<b>Dimensions:</b> 5,91 m X 11,94 m)	49'9" X 19'4" X 39'2" (15,2 m X
