

The WhirlFlex offers a unique archway passage for giggle-infused cooldowns. Six tubular structures of different sizes—each curving inwards and leaning slightly backwards—project multiple fine misting sprays directly onto rambunctious kids passing through. This structure must be cast directly into concrete.

<b>Material Options:</b>	Stainless Steel
<b>Dimensions:</b>	6' 0" x 11' 3" (1,83 m x 3,44 m)
<b>Splash Zone:</b>	12' 0" x 12' 0" (3,66 m x 3,66 m)
<b>Standard Flow Rate:</b>	30 GPM 113.56 LPM
<b>PSI:</b>	15
